

# CARTON FUN FACTS

## Did you know?

Cartons are recyclable

It is easy as **1 2 3** to find out how to recycle in your area, simply click on your area in our interactive map and you will find out how to recycle in your area.

There is a dedicated carton recycling mill in Halifax, UK.

The plant is capable of recycling up to **40% (25,000 tonnes)** of the cartons manufactured each year for the UK food and drink market.

Over **90%** of Local Authorities collect cartons for recycling.

More than 60% of Local Authorities even do this by collecting cartons from people's homes as part of kerbside recycling collections.

That is the equivalent to the weight of

**4000** elephants

or 1.25 billion cartons which could be recycled.

Laid end-to-end these would wrap around the circumference of the earth **Six** times!
